ABOUT US

We are a privately owned Environmental and Social Management Consultancy, established in Kenya, with a global scope of services, aimed at providing sustainable solutions that enable our clients meet regulatory and internal obligations whilst ensuring their projects contribute to a development that is sustainable.

We succeed by always understanding our client's needs, community and stakeholder dynamics, and using appropriate scientific techniques and social innovations that guarantee both Corporate and Community Sustainability.

We achieve, and assure our clients, quality by providing our solutions to international standards whilst innervating them to produce outcomes that fit local requirements and remain relevant over generations.

DIRECTORSHIP & MANAGEMENT

TerrCon was founded and is led by its Principal, Mr Nato Simiyu who is an Environmental Social Health and Safety Expert and a registered ESIA Lead Expert in Kenya. He holds a BSc in Maths and Chemistry, a Postgraduate Diploma in Environmental and Natural Disaster Management, and an MSc in Environmental Health Engineering all from the University of Nairobi. He is also an ISO 14001:2004 EMS Lead Auditor and proficient in the management Environmental and Social Performance under the IFC EHS Framework.

His specialities in Natural Resource and Social Management encompass: Project Management, GIS, Stakeholder & Community Engagement and Risk Assessment & Management. He is experienced in working with GIIP Standards through which he has led numerous projects and studies in industries such as: Housing, Infrastructure, Agriculture, Energy, Oil & Gas, Transportation, Health Care among others.

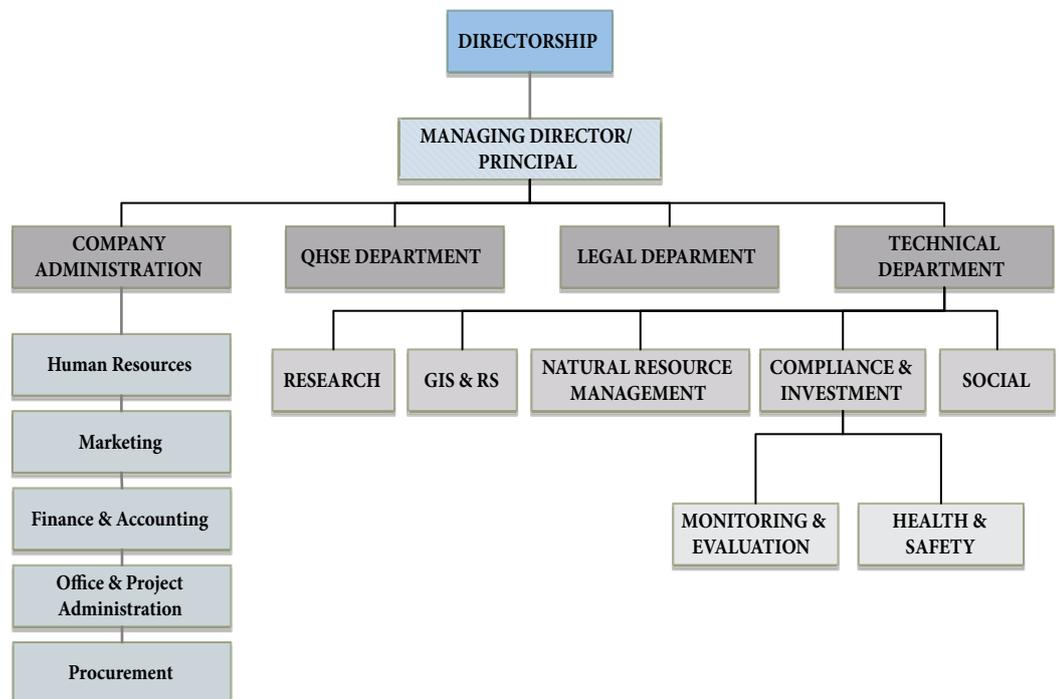

STAFF & GLOBAL EXPERIENCE

We house an experienced and creative family of committed staff who always endeavour to make a progressive difference whilst increasing value for our clients. Our staff's proficiency covers the fields of: Environmental Management, Engineering, Land Surveying & Economics, Hydrogeology, Environmental Health & Safety, Sociology, Economics, Environmental Law & Policy, GIS & Remote Sensing, Ecology, Monitoring & Evaluation, Project Management, Urban Planning & Land Use Planning amongst others.

Our staff have undertaken projects not only in Kenya but also in other countries that have included: South Sudan, Rwanda, Tanzania, Ethiopia, Uganda, Somalia, Democratic Republic of Congo amongst others. In all these countries they have applied the highest international standards and met forebearing quality, health, safety and environmental requirements.

ORGANISATION

We adopt a open system of management that promotes free thinking and expression. Our organogram is presented in this section and our key departments which are dedicated to consistently provide high quality solutions include: Company Administration, QHSE, Legal and the Technical Departments.

SOLUTIONS

As a firm we've built our capacity to solve the natural resource and social challenges that face our clients in our key markets thereby enabling them to meet their statutory and internal requirements. Our key solutions are segregated into five categories, whereas we always exploit any capacity building opportunities in all projects that we undertake to ensure a complete transfer of good practices, knowledge and skills.

COMMITMENT TO QUALITY

We manage the aspects and risks involved with our activities through an integrated Quality, Health & Safety, Social and Environmental Management System QHSSE MS. This MS enables us to produce and sustain the quality of our outputs, whilst also ensuring our operations adhere to our legislative and internal obligations in addition to those of our clients and Good International Industry Practice.

Additionally our MS enables us to adequately manage our environmental footprint and our staff's welfare whilst also building our suppliers' and clients' capacities. Therefore we guarantee our clients delivery of quality outputs and outcomes, and a transfer of risk management best practices. The policies and SOPs of this MS can be provided to clients and interested parties on request.
